

Thank you for your interest in Downard Photography. Allow me to introduce myself, I am Jim Downard, owner and photographer of Downard Photography. I hope our brochure will answer some of your questions and guide you through the many options we provide for wedding photography. Downard Photography is well established in the Athens community and has been in business for over 10 years. I have personally taken photographs of over 300 weddings and you can rest assured that I will take care of all of your photographic needs on your special day.

Your wedding day is the beginning of your family history together and is a very important event to be covered by a professional photographer. I pride myself on the ability to be creative while also allowing your individual personality and style to shine through in your photographs. I invite you for a free wedding consultation at our studio so we may talk in person and review some of the many options available for your special day.

Downard Photography is a locally owned and operated business and your personal satisfaction is our guarantee. This brochure briefly highlights our services, including wedding and album pricing. Downard Photography is a state-of-the-art, all-digital studio, meaning we no longer use film that comes on a roll. All photos taken on your special day can be printed as black and white or color photographs. We also use a website where your wedding photographs will be posted within one to two weeks of your ceremony so that out-of-town family and guests may view and purchase photographs from your wedding online. This has proven to be very popular and very convenient for clients.

If you have any questions after reviewing the website, please feel free to contact me directly at 740-592-2038. Again, thank you for contacting Downard Photography for your special day, I feel confident that I can support all of your photographic needs.

Memories are captured one photo at a time,

Jim Downard
